Rising Beyond: Even in adversity, the spirit rises anew. Resilience is the timeless cycle of growth, transformation, and rebirth.

For this year's school calendar, students have poured their thoughts and emotions into a collection of artworks centered on the theme of resilience. Each piece is a reflection of both personal journeys and a shared sense of hope. The artworks explore ideas of recovery, rebuilding, and the quiet strength it takes to rise again, capturing the essence of a community that refuses to be defined by setbacks.

Through these powerful and thoughtful creations, the students of Ullens School Kathmandu remind us that even in moments of disruption, there is always room for growth, healing, and transformation. Their work stands as a testament to the enduring spirit of the school, one that turns challenges into inspiration and emerges stronger, together.
